

## UNIVERSAL HYDRAULIC THUMB

Our GRYB universal hydraulic thumb will ease your work, especially if you need to move large objects or reposition material. Our improved design allows you to maintain good visibility. The bolted-on tines allow two different lengths to fit either with a wedge coupler, a pin grabber or directly pin-on. Simply weld the all-in-one thumb bracket to your excavator stick. The universal thumb is available in different sizes for any type of excavator.

**130° Rotation.**

**Cushion-Shock  
Absorbers Are Included**

**Light and Compact  
Design.**

**Two Possible Length Setups**
